

ONE HOME  
**ONE SIGHT**

Bathed in sunshine, bathed in life, more design, as you would like to

## About W.DSIGHT

Hebei Sofit Windows & Doors Co., Ltd. is headquartered in the world's famous county of wire mesh -Anping County. Since established, in view of global insight, our management has made the precise consideration on the strategic planning, products & market positioning, we are consistently committed to build an integrally modern and high-end industrial enterprise including design, development, manufacturing, marketing, customization and service, we endeavor to create the leading brand and become the professional custom service provider in quality screen windows, screen doors and systematic windows & doors in China.

During the development process, we insist on the spirit of "Keep improving, make perfection", persist in "integrity, concentration, innovation and win-win" management ideal, with core business value of "profession, efficiency, teamwork", excellent after-sale service, the cutting-edge design ideas and team groups of abundant experience have been introduced during the whole production process to achieve the perfect match between design ideal and quality products.

Our product series contain quality screen window series, quality screen door series, quality window & door series. We put forward "W.DSIGHT" Series based on industrial trends and design ideal worldwide, which brings fashionable design style, excellent processing techniques and anti-theft feature together in product manufacturing. Our products are uniformly designed and produced based on excellent design, superior materials and advanced techniques to make "W.DSIGHT" become the top class screen windows in the industry.

We have modern workshops and internationally standard production lines at our factory, we have long term business relations with famous design & research institutes domestically and internationally to make "W.DSIGHT" become the noble quality. At present, "W.DSIGHT" products have been exported to over 20 countries and regions and enjoyed high appreciation worldwide like Europe, America, South East Asia.

Focusing on present to foresee the future, we devote to offer superior products and excellent after-sale service to overseas customers on the basis of brilliant management mode, unique corporate culture. We look forward to make great contribution in the window & door industry in the world.

## Company Culture

### 【VISION】

Devoting to build up the high-end leading brand in China

### 【MISSION】

To make quality life driven by innovation and value

### 【SPIRIT】

Keep improving, make perfection

### 【MANAGEMENT IDEA】

Integrity, concentration, innovation, win-win

### 【SENSE OF WORTH】

Responsibility, profession, efficiency, teamwork

### 【STYLE OF WORK】

Trustworthy, fast, pragmatic, accurate, careful

形象代言人：于荣光

Let the sun free projection , let the family  
Closer to nature

Exterior installed  
inner open screen window

## PROFILE

Aluminum profile, thickness 1.5mm  
Primary aluminum material, great toughness, long service life, 5-years over-long quality guarantee period

## WINDOW SCREEN

Brand: SENRISE, the famous leading brand in window screens in China.  
Wire diameter 0.5mm, SUS304L stainless steel security screen, 5-year quality warranty period.

## SPECIFICATIONS

Outside frame width 34.3mm    Outer frame thickness :31.5mm  
Inner frame width :32.6mm    Inner frame thickness :17mm

## HARDWARE

Zinc alloy handles: user-friendly design, high tensile strength resistance, tiny and flexible to use

Aluminum alloy fixed hinges with double wings: open, closed and uninstalled freely, easy to be cleaned to achieve the good ventilation effect, convenient to be stored in winter.

SUS304 stainless steel screws: high intensity, non-deformation, no rust.

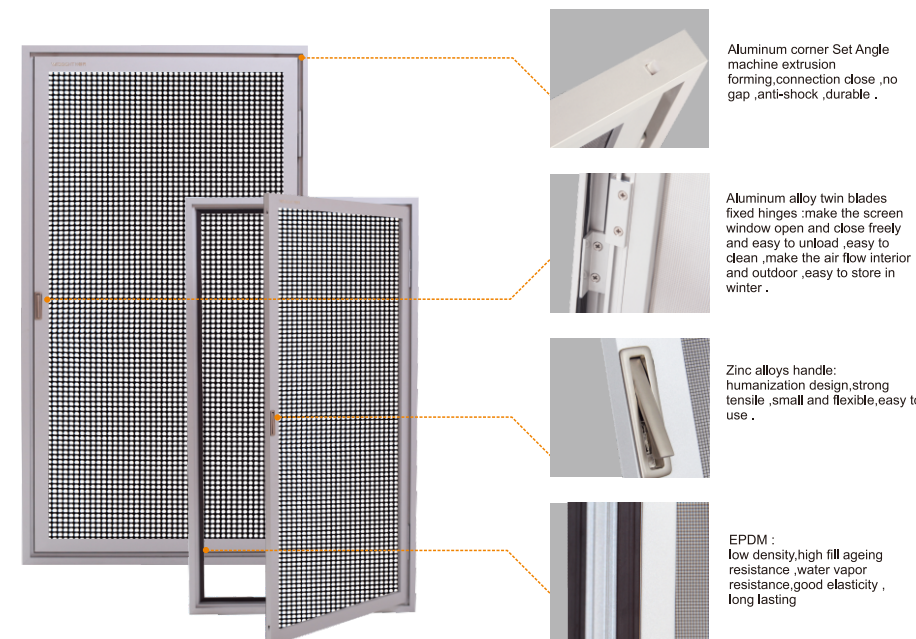

EPDM rubber strip: anti-aging and non-deformation

Quality magnetic strip

## FEATURE

- 1 Applying wire diameter 0.5mm SUS 304L stainless steel screen mesh and 5-year quality assurance insured by PICC, products with defects could be freely replaced within 5 years when rusting appears on products.
- 2 Adopting exquisitely unique design, perfect connection between quality and innovation, full of modern atmosphere
- 3 It could achieve the smallest size of outer frame and good light transmission under the reasonable frame structure and high tensile strength
- 4 Double frames design, fixed outer frame and open inner frame, which is featured by better safety, non-transformation, compact sealing and easy to be clean
- 5 Adopting aluminium corner brackets to make extruded models, compact connection, non-gaping, crush resistance, solid and durable
- 6 Applying plain woven stainless steel wire, high tensile strength resistance, long lifetime, compact structure, easy to use, anti-static, acid&alkali resistance, corrosion resistance
- 7 Applying AkzoNoble powder coating, good surface appearance, corrosion resistance, anti sulfuric acid, hydrochloric acid and sodium hydroxide, smooth surface with no dirt, excellent weather resistance

## FUNCTION

Excellent light transmission, easy to uninstall, insect and mouse proof, anti-UV.

## COLOR

☐ White    ☐ Coffee    ☐ Green  
☐ Champagne    ☐ Grey

## APPLICATION

Broadly applied to casement windows, window screens is exterior installed inner open style

## AFTER-SALE SERVICE

- Lifelong service of changing mesh
- Lifelong service of changing accessories
- Lifelong service of maintenance
- Lifelong service of old for new

# SSJ-0002

Exterior installed  
outer open screen window

## PROFILE

Aluminum alloy profile with 1.2mm thickness.  
Original aluminium profile, excellent toughness, long lifetime period.

## ANTI-THEFT SECURITY MESH

Brand: SENRISE, the famous leading brand in window screens in China.  
SUS304L stainless steel security screen with 1.6mm thickness, good hardness, high tensile strength, anti collision capability (2.148 ton), 5-year quality warranty period.

## SPECIFICATIONS

Outside frame width :39.3mm    Outside frame thickness :31.2mm  
Inner frame width :66mm        Inner frame thickness :31.2mm

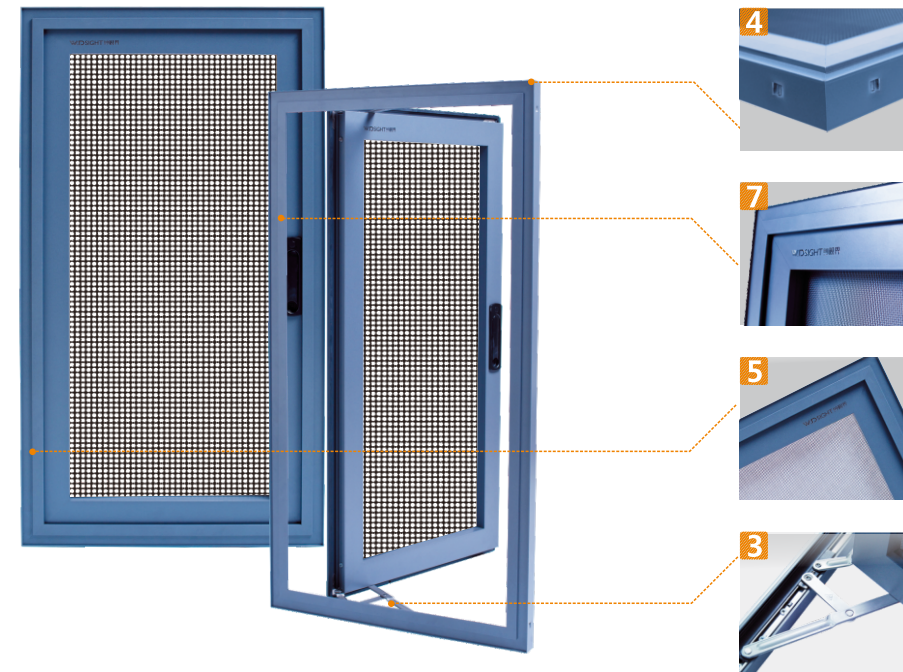

## HARDWARE

Custom lock hardware: solid and durable, better safety, elegant appearance  
SUS304 stainless steel sliding support: stable, noise resistant, smooth sliding, 5-year quality warranty without any rusting  
SUS304 stainless steel screws: high tensile strength, non-deformation, no rust  
Aluminium alloy corner brackets  
EPDM rubber strip: no aging, durable and non deformation

## FEATURE

- 1 Applying blue-ray anti-fake insured security screens, 12 million liability assurance and quality insurance insured by PICC, 5-year quality warranty with no rust
- 2 It could achieve the smallest size of outer frame and good light transmission under the reasonable frame structure and high tensile strength
- 3 Casement structure with wide open space, it could be move to any positions, flexible opening
- 4 Adopting aluminium corner brackets to make extruded models, compact connection, soild and durable, anti-theft resistance
- 5 Water discharge rabbet design to prevent rainfall from penetration and ponding matters
- 6 Adopting edge folding processing technics, metal extruded strip and screen mesh machine are fixed to avoid stealing, applying fricting hinges, multi lock points to make screen window more safe
- 7 Ultra weather resistant powder coating: smooth surface, soft textile, good corrosion resistance, anti sulfuric acid, hydrochloric acid & sodium hydroxide resistance,

## FUNCTION

Anti theft, mosquito proof, anti-UV, peeping resistance, anti falling, corrosion resistance

## APPLICATION

Broadly applied to casement windows, window screens is exterior installed outer open style

## MESH SCREEN

AkzoNobel (TOP 500) powder coated security screen  
12 million blue ray anti-fake insured security screen

### COLOR

## Anti-theft

### single hung screen window

#### PROFILE

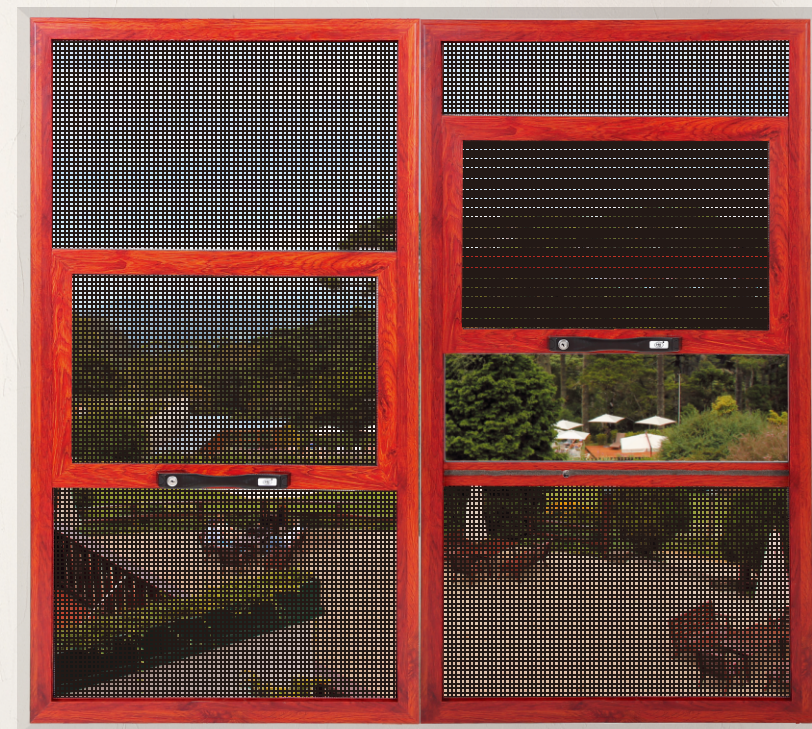

Aluminum alloy profile with 1.2mm thickness.  
Original aluminium profile, excellent toughness, long lifetime period.

#### ANTI-THEFT SECURITY MESH

Brand: SENRISE, the famous leading brand in window screens in China.  
SUS304L stainless steel security screen with 1.6mm thickness, good hardness, high tensile strength, anti collision capability, 5-year quality warranty period.

#### SPECIFICATIONS

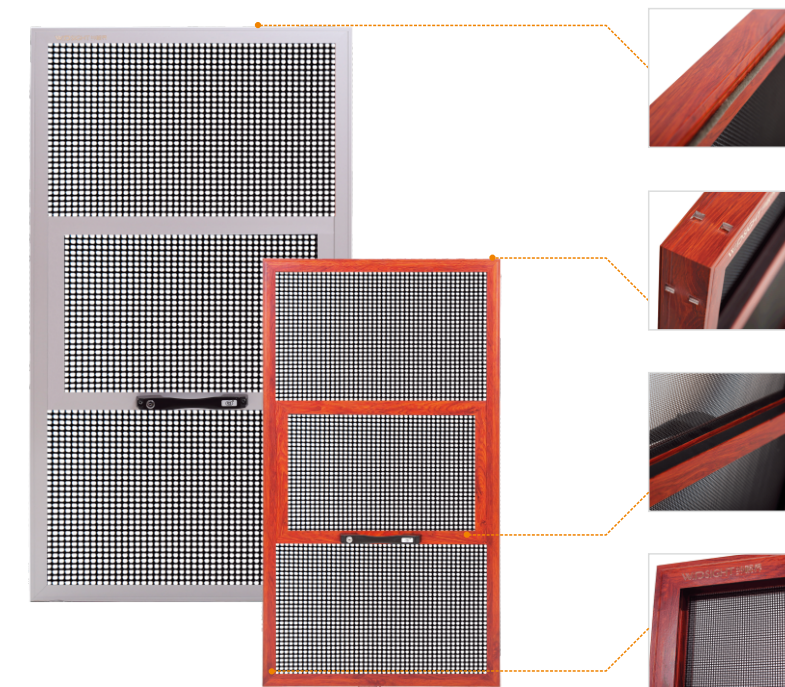

Outer frame width: 32.5mm    Outer frame thickness: 40.9mm  
Inner frame width: 33mm    Inner frame thickness: 17.9mm

## FEATURE

### 产品特点

- 1 Applying blue-ray anti-fake insured security screens, 12 million liability assurance and quality insurance insured by PICC, 5-year quality warranty
- 2 Adopting edge folding processing technics, metal extruded strip and screen mesh machine are fixed to realize good anti theft and collision resistance
- 3 Two or three sliding structure could be freely selected based on window types to avoid using effect caused by outer handles on windows
- 4 Adopting aluminium corner brackets to make extruded models, compact connection, solid and durable, anti-theft resistance
- 5 Safe handles for children to conveniently close screen windows and to prevent children from falling off so that safety for children could be guaranteed
- 6 Damping slipper installed on screen windows, which is featured by stopping function to avoid getting fingers hurt
- 7 Compact profile design with exquisite sliding design, only 0.5mm gap between windows and slider, smooth sliding on switch button, super quietness, good sealing, no hurt to fingers
- 8 No occupying in the room, no wind effects, flexible to open

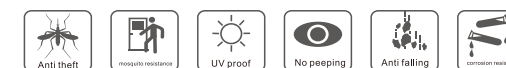

#### HARDWARE

Haijun Brand Child lock handle: environmentally-friendly zinc alloy material, moderate hardness and tensile strength, safety lock points design to protect children's safety  
SUS304 stainless steel screws: high tensile strength, no deformation, no rust  
Superior magnetic strip: brilliant absorption capability, durable and lasting  
Superior wood strip: silicone oil treatment, good elasticity, water proof, anti aging, abrasion resistance

#### APPLICATION

Broadly applied to casement windows, window screens is exterior installed outer open single hung style

#### MESH SCREEN

#### SELECTION

- 1) AkzoNobel (TOP 500) powder coated security screen
- 2) 12 million blue ray anti-fake insured security screen

## Press-button retractable screen window

### PROFILE

Aluminum alloy profile with 1.1mm thickness  
Brand: High-tech enterprise in Guangdong Province-Guangya Aluminium  
Original aluminium profile, excellent toughness, long lifetime period.

### WINDOW SCREEN

American Brand: PHIFER fiberglass screen  
Adopting imported fiberglass window screen, mesh size 18×16, which is featured by environmentally-friendly, anti-aging, cold and corrosion resistance, excellent light transmission, flame retardance, electrostatic proof, long lifetime period.

### SPECIFICATIONS

Yam box width: 61.5mm	Yam box thickness: 52.2mm
Slider width: 36mm	Slider thickness: 21mm
Bottom rail width: 36mm	Bottom rail thickness: 25.3mm

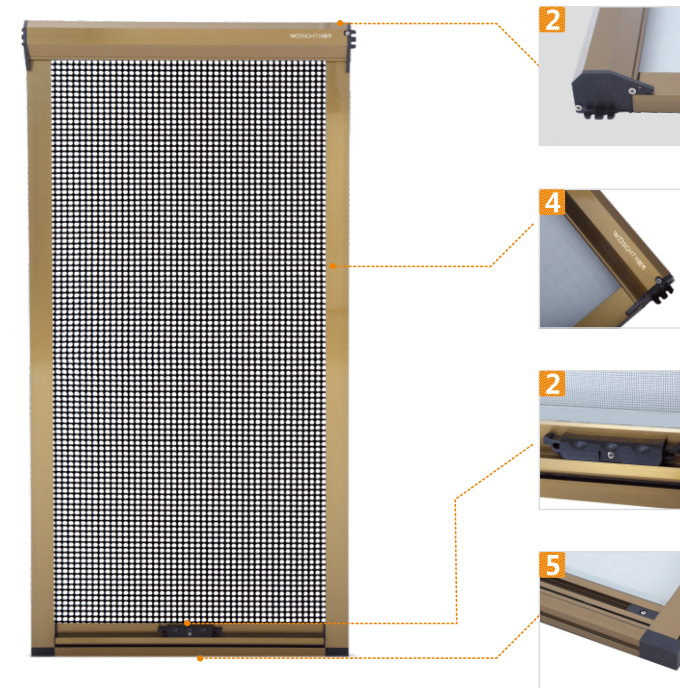

### HARDWARE

SUS304 stainless steel torsional spring: unique design, accurate combination between profile and hardware, reasonable opening strength, SUS304 stainless steel material to make sure no rust and longer lifetime period.  
Applying superior hydraulic damping to assure steady and smooth retraction of window screens  
Wind resistant card: unique PVC card design, which perfectly solve the matters on blowing off of window screens, level-12 wind test has been approved by professional inspection institute

## FEATURE

- 1 Adjustable torsion: applying turbine worm structure to adjust pretightening force, customers could regulate worm based on personal interests to make sure that the speed of opening and retraction could meet the customers requirements
- 2 Press-button lockup: invisible lockup device, which could lock up inside the spare parts, has the features of flexible opening and closing, easy to use, tidy appearance, stable lockup, long lifetime period
- 3 Durable and lasting: self-innovative design on retractable device, durable and strong retraction, no deformation after being retracted 40000 times
- 4 Exquisite production: rigorous producing requirements to assure intact appearance and quality, tiny gaps when assembling
- 5 Self cleaning: the self cleaning device at the exit of Yam box could clean dust on screens automatically when opening and closing to guarantee the clean and tidy surface

### FUNCTION

### MESH SCREEN

Mesh aperture: 18×16, 20×20, 26×26

## Hinged security screen window

### PROFILE

Aluminum alloy profile with 1.4mm thickness  
Original aluminium profile, excellent toughness, long lifetime period

### WINDOW SCREEN

Brand: SENRISE, the famous leading brand in window screens in China.  
SUS304L stainless steel security screen with 1.6mm thickness, good hardness, high tensile strength, anti collision capability(2.148 ton), 5-year quality warranty period with no rust.

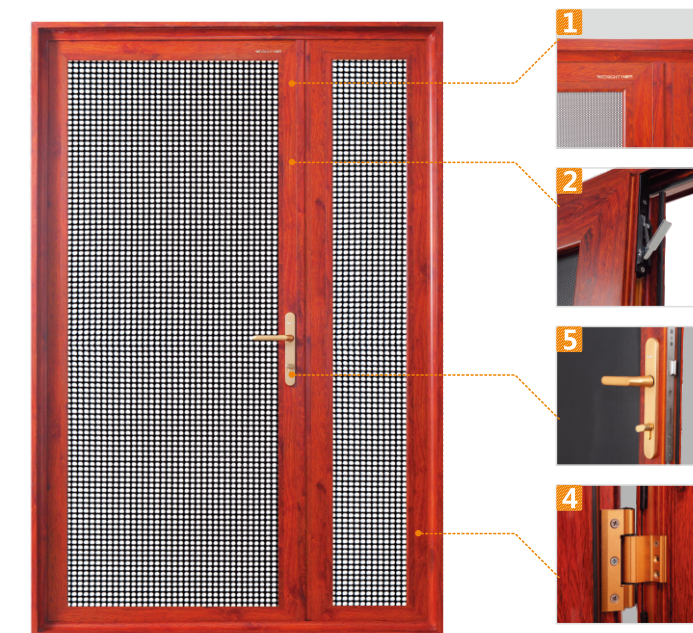

### SPECIFICATIONS

Outer frame width: 45mm    Outer frame thickness: 30mm  
Inner frame width: 94.5mm    Inner frame thickness: 30mm

## FEATURE

- 1** Appearance: european design style, stereoscopic arc-shape opening door and cord grip corner, cord grip with counter hook structure to make sure it could be conveniently installed, cord grip is stiff and stable after installation
- 2** Structure: reasonable structure and elegant appearance could be met under the condition of good tensile strength of structure, the decorated strip are adopted to seal the outer installed hole on hinged screen door to realize outside tidy appearance. Applying edge folding and steel strip for fixation on opening door to make sure rigid and stable installation, anti theft performance
- 3** Smooth linellae on outer appearance, smooth mesh surface and uniform mesh hole, luxury and fashionable appearance as a whole
- 4** Heavy duty flat hinges are adopted and fixed on screen door and door frame, flexible opening without dropping, firmness and more safe
- 5** Multi lock points design, open freely, effectively prevent mosquito inside the room, anti theft, simple and elegant, beautiful and durable

### HARDWARE 五金配件

HOPO hardware: simplified design, exquisite workmanship, beautiful gloss to show the elegant taste.  
SUS304 stainless steel screws: high tensile strength, no deformation, no rust

## Tracked folding screen window

### PROFILE

Aluminum alloy profile with 1.0~1.4mm thickness  
Alloy material: 6063 pure aluminium forged, corrosion resistance  
Brinell hardness: Brinell 11-14/60HB

### WINDOW SCREEN

Corrugation height: 16-18mm  
Mesh thickness: 0.18-0.34mm  
Material: PP+PE compound  
Performance: heat resistance, corrosion resistance, water proof

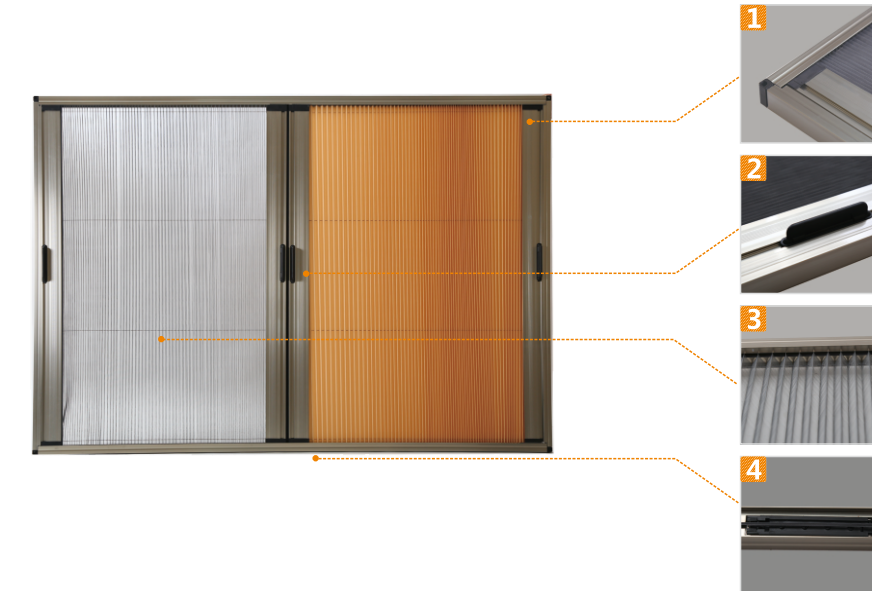

### SPECIFICATIONS

Limited height: 3.2m  
Limited Width: 5m  
Type: windows and doors could be customized

## FEATURE

- 1 Applied to any types of windows and doors, easy to be installed, convenient maintenance, DIY uninstallation within 5 seconds
- 2 Patented wire adapter and quick-release design
- 3 No need to uninstall outer frame when replacing window screens, convenient cleaning
- 4 Fixed fastening attached to outer frames for easy moving screens, maintenance and replacement

### HARDWARE

Material:  
PA66( nylon 66), POM(polyformaldehyde), ABS resin

### FUNCTION

Simply installed and uninstalled  
Free installation  
Flexible model  
Applied to various large or small window frames and door frames

### APPLICATION

Application: applied to 1-5 square meters' window, free selection from the effects of perspective and sunshade

### COLOR

#### Profile Color

## Tracked folding screen door

### PROFILE

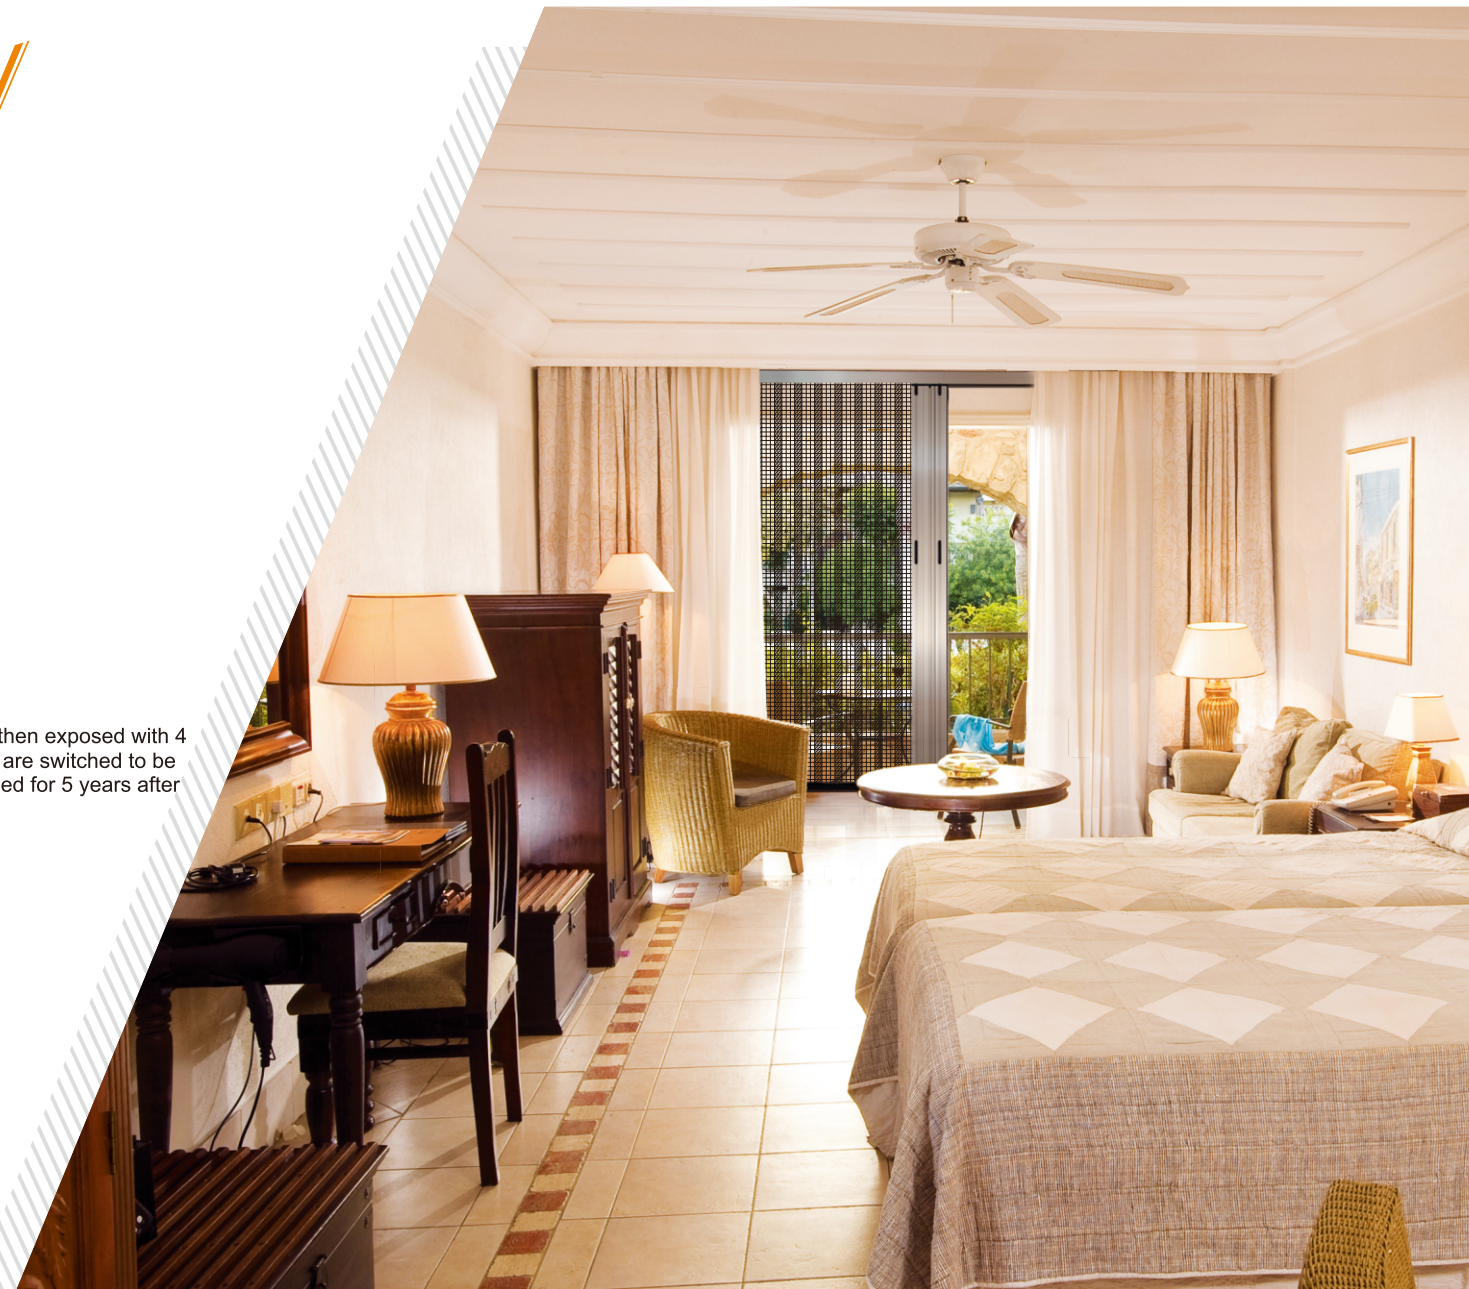

Material: aluminum magnesium alloy profile 6063-T5  
Thickness: 1.0~1.4mm  
Brinell hardness: Brinell 11-14/60HB

### WINDOW SCREEN

Material: PP+PE compound  
Color: black, grey  
Mesh aperture: 0.18-0.34mm  
Heat resistance: exposed with 8 hours under 60°C, and then exposed with 4 hours when cooling down to 50°C, two different degrees are switched to be exposed with 1000 hours in total, it could be normally used for 5 years after exposure

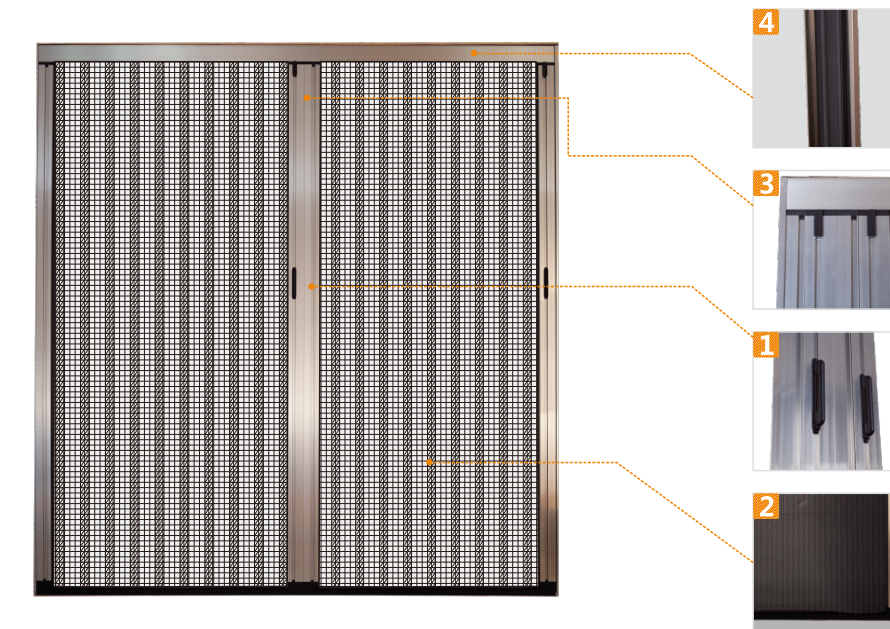

### SPECIFICATIONS

Corrugation height: 16mm, 19mm, 20mm

## FEATURE

- 1 Weather resistance,
- 2 water proof,
- 3 heat resistance,
- 4 100% sunshade effects,
- 5 sliding times: over 100000 times,
- 6 tension strength: trackless 2KG,
- 7 mesh wind resistance: level 12,
- 8 UV resistance: 60%,
- 9 dust proof effect: 70%

### HARDWARE

Material:  
PA66(nylon 66), POM(polyformaldehyde), ABS resin

### APPLICATION

High-end villa and office buildings

### FUNCTION
